

SCHOOL VALUES AUDIT

The aim of this worksheet is to get you thinking about what project or idea you could implement at your school to promote cyber safety. This worksheet will help you think about not only the things in your school that need improvement, but also what are some strengths that you could utilise and build upon.

Your task, is to fill out the worksheet with as many examples in each box as possible. Use this sheet as an initial brainstorm so that you can think of as many ideas as possible. Take as long as you need, there is no time limit! The best thing you can do is have a think and come up with as many ideas as you can.
